

Measuring for your cafe curtains

- Fix your tension rod/pole first.
- Measure the tension rod/pole length (A)
- Measure the length from the rod/pole to the windowsill (B) The finished curtain will sit around 1cm above the sill.

Window 1

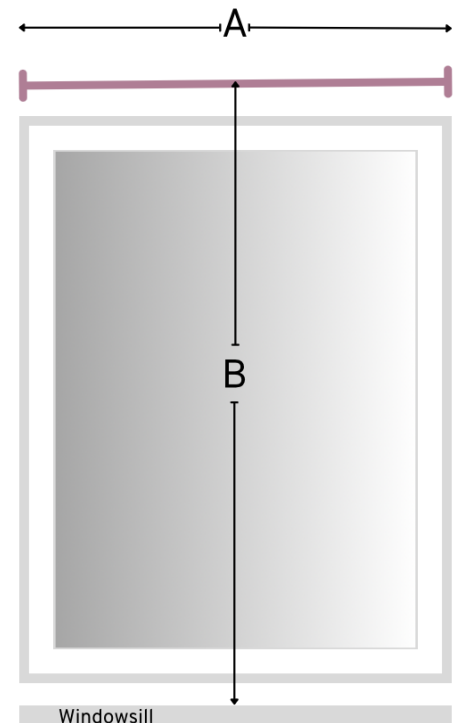

A. Pole Length

B. Pole to sill

A. Pole Length

B. Pole to sill

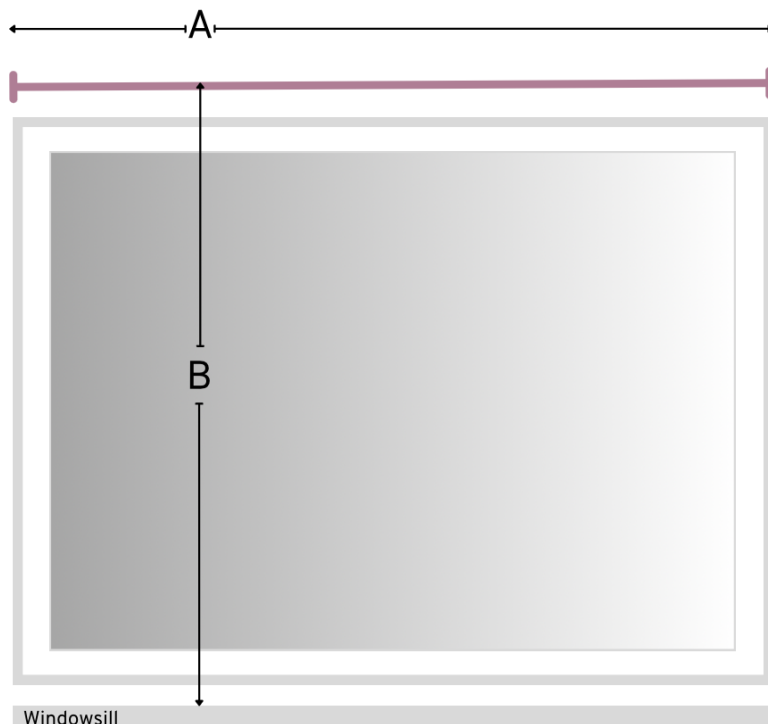

Window 2

A. Pole Length

B. Pole to sill

Window 3

A. Pole Length

B. Pole to sill
